

DEPARTMENT OF THE AIR FORCE
OFFICE OF THE CHIEF OF STAFF
WASHINGTON, DC

DEC 30 2005

MEMORANDUM FOR ALMAJCOM/FOA/DRU/CV

FROM: AF/IL

SUBJECT: Installation Energy Policy Goals and Reporting Requirements

The Office of the Secretary of Defense recently revised the Department's facility energy management goals (Atch 1), and attachment 2 identifies specific AF POCs for each goal. The Under Secretary of the Air Force, as our Senior Energy Official has directed that these goals be implemented in order to meet the timelines identified. The OSD goals tighten long-standing facility energy targets based on the goals included in the Energy Policy Act of 2005. Our success in meeting the goals will require a cultural change on the part of all Airmen, and will be achieved in an environment of constrained fiscal resources.

Additionally, effective immediately monthly reporting requirements for facility energy use and fuel consumption/conservation efforts, outlined in the 13 Oct 05 VCSAF Memo, will now be accomplished quarterly. We hope this will reduce workload and provide a more useful product for the Under Secretary's focus group on energy.

Facility energy reports are to be forwarded to HQ AFCEA within 45 days of the end of the quarter (15 May 06 for the second quarter) using the Defense Utility Energy Reporting System (DUERS). MAJCOM/A4 reports on fuel consumption/conservation are requested to be sent to AF/ILGM NLT 20 Mar 06 for the second quarter. Quarterly reports are to remain in the same format as previously specified and should show details for each month of the quarter.

In implementing these goals, or meeting the quarterly reporting requirements, your staff may direct their questions to the functional experts for facilities at HQ AFCEA listed next to the goals (Atch 2) or to Lt Col David Abruzzi, AF/ILEXO, DSN 664-4220, commercial (703) 604-4220. For fuels consumption and conservation efforts and goals the AF/IL POCs are Lt Col Rosemary Thome, DSN 225-9783, or MSgt George Richey, DSN 225-0728.

MICHAEL A. AIMONE, P.E.
Asst DCS/Installations & Logistics
